Range (nautical mile)	> 500 NM @ 10 kn
Propulsion	2x YANMAR / 6AYM-WET 2x 610 kW/ 829 bhp @ 1,900 rpm

## MICROMEGA | Tug Boat

The Micro Mega is an exceptionally well designed twin screw tug, robust, simple and reliable. Thanks to its low maintenance concept. It is perfect for small harbours in remote areas. But also an ideal comparison to more powerful Voith-Schneider tugs in major ports. Designed by LOMOcean Ltd., New Zealand.
